1. General Information

There are two methods to log in to the Learning Management System for education, continuing education, and professional development offered by the University of Veterinary Medicine Hannover Foundation in the Academic Cloud - hereinafter referred to as "Moodle" .

If you are employed by a university that is registered in the Academic Cloud, you do not need to register again in the Academic Cloud or on Moodle; you can use your university's standard login credentials. The next chapter explains the exact login procedure and how to determine whether your university is registered in the Academic Cloud.

If you are not employed by a university or work at a university that is not registered with the Academic Cloud, you must first register with the Academic Cloud before logging in to Moodle. You will then be able to log in to Moodle.

Only after you have successfully logged in to Moodle can the Moodle team enroll you in your courses.

2. Login

Moodle is accessible via the following link. Please visit this homepage:

<https://learning.tiho-hannover.de/>

Proceed by clicking on the Login button in the top right corner.

You will be forwarded to the login mask of the Academic Cloud. Select the “Federated Login” to check if your institution is available for direct login. If you’re not with an institution, skip to [Chapter 2.1](#).

At the bottom right, there's a link 'Sie haben noch keine Academic ID? Registrieren'.

Search the drop-down-menu for your institution by typing it in or by clicking on the error on the right.
